

FENCEGUARD™

Grounds Maintenance Solution

Issue: Athletic field fence line maintenance
Customer: City of Golden Valley, MN (Isaacson Park Little League Baseball Field 1)
Solution: FENCEGUARD installed by youth baseball association

Customer Feedback

“We installed FENCEGUARD under the outfield and foul line fencing at a little league baseball field. The installation process was straightforward, and was completed primarily through volunteer efforts from our youth baseball association. FENCEGUARD has allowed us to complete the field maintenance more efficiently, while providing a neat, clean-cut appearance along the fence lines.”

Al Lundstrom, Park Maintenance Supervisor
City of Golden Valley (MN) Physical Development Dept.
